modefinance Corporate Credit Rating (Solicited) for

## BETTER SILVER S.P.A.: A3- (first issuance)

modefinance published the Solicited Corporate Credit Rating of BETTER SILVER S.P.A. on the website (<http://cra.modefinance.com/en>) and the rating assigned to the entity is A3- (first issuance). The analysis revealed company's capacity to meet its commitment on financial obligations is strong.

BETTER SILVER S.P.A. is a company operating in the design, production and marketing of silver jewelry. Founded in 1977 by the Bettinardi brothers, it is still led today by the second generation of the same family, whose efforts over the years have made it an important player in the industry.

## Key Rating Assumption

The Company's economic and financial situation is characterized by a strong capitalization thanks to the owner's strategy of historically reinvesting profits to protect equity. This is complemented by a sound financial balance and consistent profitability. Despite the contraction in liquidity, the cash flows are balanced, with operations alone able to finance investments and ensure the repayment of financial liabilities. Furthermore, the contribution of the working capital appears substantial. The management of credit lines appears correct, with prompt payments and no episodes of overruns.

The governance and control system is appreciable, with administrative and internal control bodies having collegial form. The certification of financial statements is entrusted to an auditing firm. The group structure appears streamlined and clear in roles.

The long-standing background contributes positively to the Company's know-how, which also boasts a global market presence, as 95% of its turnover is generated in foreign markets. The distinctive trait of the ownership is the constant search for efficiency in production capacity, along with careful investments in innovation and sustainability.

Compared to the competitors, the Company presents an adequate positioning in all the areas analyzed. The peer group shows a marked and constant reduction in debt levels, accompanied by a contraction in sector ROE, which is still broadly adequate values. Overall, the sector's financial balance appears solid.

## Sensitivity Analysis

In the following table, the addressing factors, actions or events that could lead to an upgrade or a downgrade are summarized:

Action	Description of the addressing factors, actions or events
<b>Upgrade</b>	<ul style="list-style-type: none"> <li>Cash generated from operation covers investment and financing activities;</li> <li>Appointment of a supervisory body (D.Lgs. 231/2001) ;</li> <li>Overcoming the current phase of uncertainty positively impacts the macroeconomic framework.</li> </ul> <p>In the case these conditions are met, the rating could upgrade to A3+.</p>
<b>Downgrade</b>	<ul style="list-style-type: none"> <li>Significant contraction in economic margins;</li> <li>Excessive reduction in financial debts;</li> <li>Continued high inflation undermines consumption and investment, prolonging the phase of economic uncertainty.</li> </ul> <p>If these conditions were to occur, we can expect a downgrade to B1.</p>
